

Madera Doors

Madera doors have a plain sliced oak pattern wood grain, embossed into the steel, which when factory finished produces the look of real wood. A clear top coat finish provides lasting protection for the stain system.

Features

- The natural beauty of wood in a durable, fire-rated stainable steel door.
- Won't warp, rot or wear and weather like wood.
- Factory finished in stained natural wood tones with accessories and trim to match.
- Tough, clear top coat with Ultra Violet (UV) protectors.
- Glass lights feature frame trim finished to match door.
- Polystyrene core provides structural strength and resists impact.

Custom Frames

With over 53 years in the custom hollow metal business Ceco Door's manufacturing capabilities go well beyond most hollow metal manufactures abilities.

Ceco's custom frames are available in hundreds of made to order configurations, profiles and backbends to suit your design needs. Including, arched, curved in plan, knocked down or welded. Go to www.cecodoor.com for more information.

Decorative Doorways

ASSA ABLOY, the global leader
in door opening solutions

Decorative Solutions

Ceco's Decorative Doorways add sophistication and elegance to any room or entrance. High definition embossed panel designs, stainable wood grain steel doors and beautiful custom frame designs are all manufactured by state of the art equipment. Perfect for condominiums, assisted living complexes, multi-family, hotels, casinos, office buildings, schools and much more.

Energy Efficient

- Ceco's embossed doors have an energy efficient foamed in place core that provides exceptional thermal resistance which means lower cost of building ownership.

Beautiful & Durable

- Beautiful Madera wood grain doors are more durable and fire resistant than any architectural wood door.
- Ceco doors and frames can be factory prefinished with Aesthetically pleasing ColorStyle paint with over 1900 color options.

Green

- Ceco uses environmentally-sound practices in the manufacturing and shipping of our hollow metal doors and frames. Let us help as you strive to design "Green" buildings that are safe, secure and aesthetically pleasing.

High Definition Embossed Doors

The Ceco High Definition Embossed 1 and 2 -Panel designs make a grand impression for any school, apartment, office building or hotel. The HD 1-Panel Door features a bold wide high definition embossed design. Ceco's HD 2-Panel doors are offered in three architectural designs 2-Panel, Arch Top and Plank Arch Top. All three designs add elegance to any room or entrance. (Plank Arch Top shown).

Features

- HD 1-Panel doors offer a more contemporary take on a classic one panel design with tremendous curb appeal.
- HD 2 -Panel doors fit beautifully with both traditional and contemporary designs.
- High Definition embossed doors have energy efficient cores that provide exceptional thermal resistance.
- All High Definition embossed doors are available from 2'8" x 6'8" to 3'0" x 8'0" sizes.
- MicroShield® prefinish paint option gives Ceco doors and frames an extra layer of protection against germs and bacteria.
- Doors are made with 18 gage galvanized steel fire rated up to 3 hours from UL & WH labeling agencies.
- HD 2-Panel and Embossed 6 panel designs are also available with STC ratings up to STC 47.

ReadySet®

Decorative doors are available with the preassembled ReadySet system. ReadySet openings are shipped to the jobsite with all components - doors, frames, and mechanical or electromechanical hardware - prefinished and fully functional. Many product styles and all finishes are available. Go to www.Readysystem.com for more information.
