

Heavy Duty

# E119 Fire Resistive Frame

Ceco **E119 Fire Resistive Frame Solution** meets the International Building Code for fire resistive rated frame requirements.

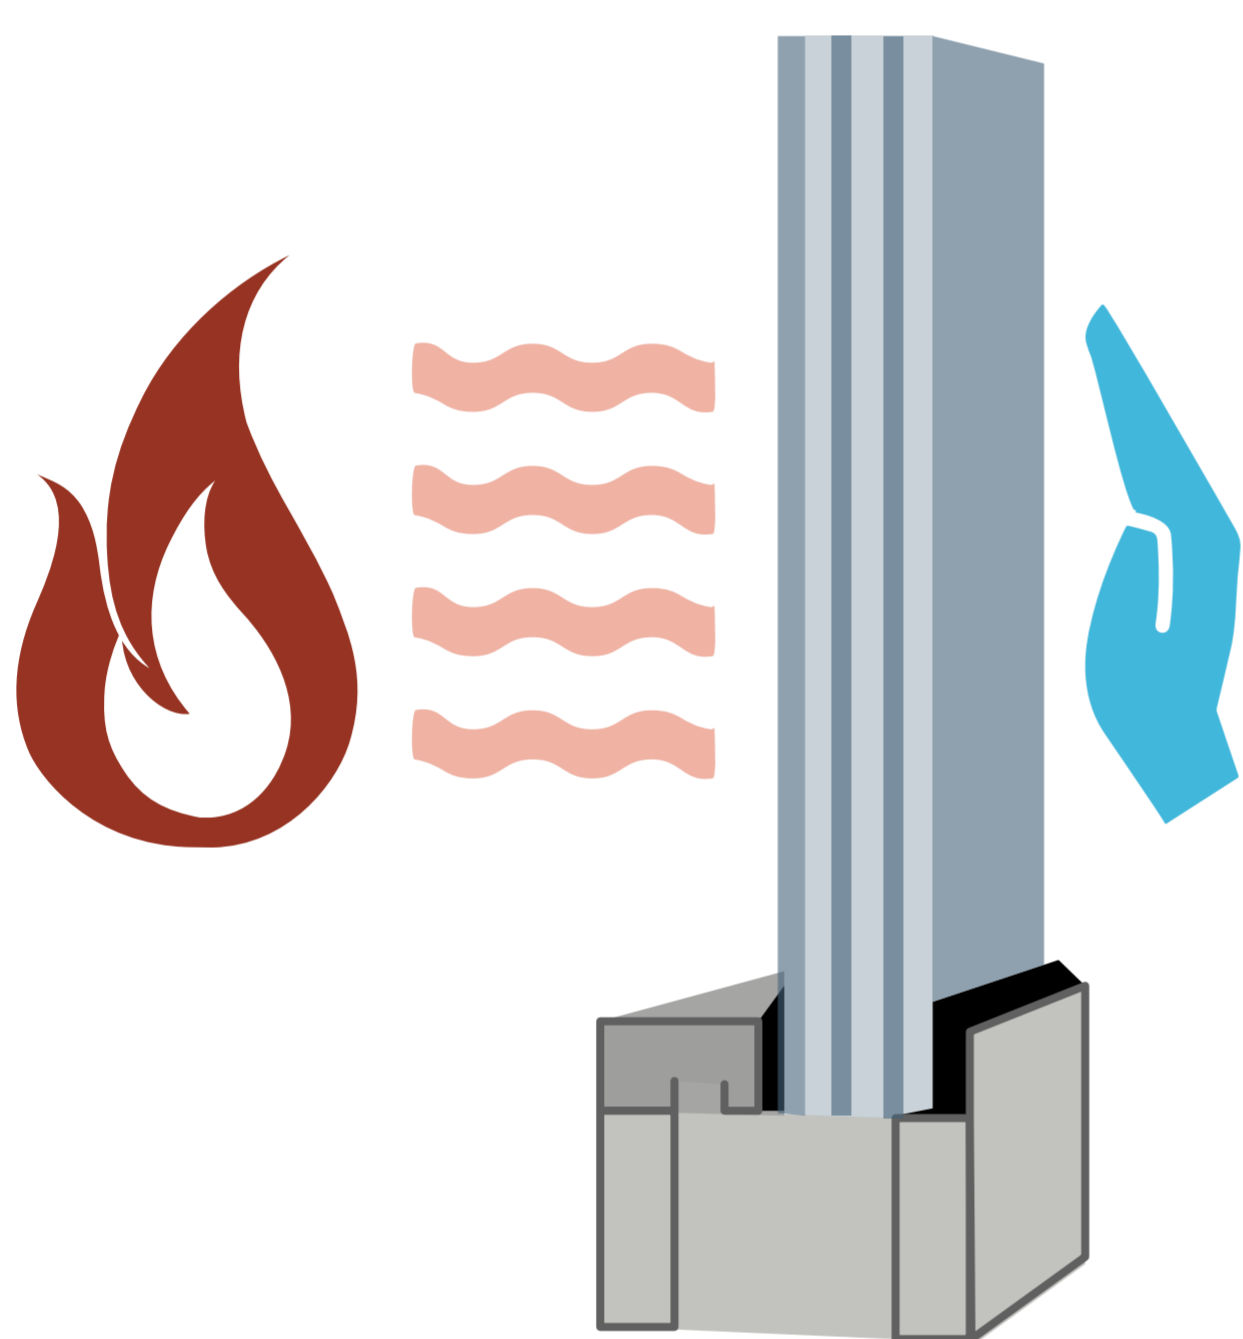

For interior glazed areas exceeding

**25%**

of the wall.

**1-3** hour

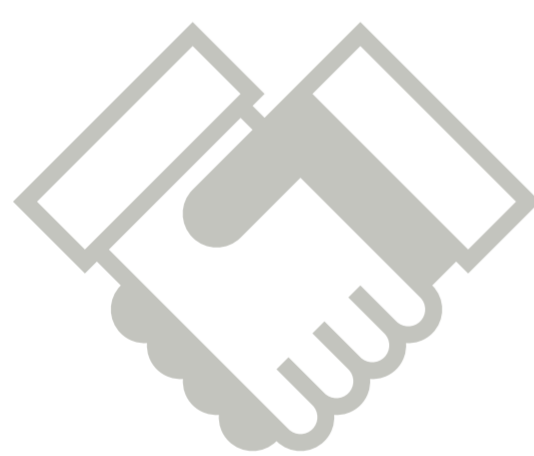

fire ratings available.

Blocks flame, radiant heat, and hot gases.

Contains an interlayer that becomes opaque in the event of fire and acts as a heat shield.

Tested to ASTM E119, UL 263 and NFPA 251.

We are pleased to partner with Vetrotech, a Saint-Gobain company to produce Fire Resistive Frame Solutions.
